Net Billing: As provided in the Utility's Interconnection Standards, and subject to the terms thereof and revisions thereto, whenever the amount of electricity delivered by an eligible Customer Generator in a billing period is more than the electricity supplied by the Utility in a billing period, the Utility shall pay the Customer for the net amount of energy delivered by the Generating Facility. The Utility shall pay for such net amount of energy at the Utility's avoided costs rate in effect on the last day of the applicable billing cycle. The Utility may revise its avoided costs rate at any time and from time to time. 8. Demand for billing purposes shall be the maximum integrated kilowatt demand, as recorded by a standard demand meter, occurring in any sixty (60) minute interval, in the billing month.

The Utility shall have the right to install, at the expense of the customer, any facilities necessary to bring the power factor within such limit, or shall require the customer to install such facilities within sixty (60) days after receiving notice to do so.
10. KW and kWh, as used in this resolution, are abbreviations for kilowatts (kW) and kilowatt-hour (kWh).
11. These electric rates shall become effective for electric power and energy consumed after December 18, 2020. Section 6 hereof shall become effective upon the effective date of this resolution.
12. Bills are mailed on the first of each month and are due upon receipt. After the 20th of each month, late payment penalties will be applied.

14. Severability Clause. If any section, provision or part of this resolution shall be adjudged invalid or unconstitutional, such adjudication shall not affect the validity of the resolution as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.
